2024 Solar Eclipse Recap

Cape Anguille – Anne Marie and Chris Fitzgerald

Oh, what an experience! Chris and I went to Cape Anguille, which was clear until it wasn't. So at 4:15 we ditched and beat it back to the highway, and made it back to a clearing about 5 minutes outside Coal Brook. Still cloudy, but enough breaks in the cloud to witness totality. **The cold and darkness, and the 360° sunset, and the diamond ring and Corona.** I may have even seen Bailey's Beads if I hadn't been trying to take a photo. The eclipse was amazing, we were in total awe.
